The fact that these are the only gold bonds on the local market is said to account for the demand for them by local investors. The sale this week was made by E. L. Burton. many sales are being recorded. These are small for the most part, it is true, but they are genuine and indicate a steady growth in the city. There are many low priced lots being sold for building purposes, and preparations are being made for the erection of a great number of small cottages during the season. In all the real estate business done thus far this spring there seems done thus far this spring, there seems to be a total lack of the element of spec-ulation, and this is considered the best feature of the situation. The prices on desirable property are advancing rapidly, and on some of the best east side lots the values have touched the boom prices of the early '90s.

Floral avenue was the scene of a tempest in a teapot last night between 10 and 11 o'clock. A resident by the name of F. A. He continued the use of the medicine and after taking two bottles he was completely cured, and, as he expressed it, felt as if he was on earth for the second time. He has never had any boils since. Medicines failed to do me any good until I began taking Hood's Sarsaparilla. Today I have excellent health and my eyes give me very little trouble.
